

Ring Size Guide

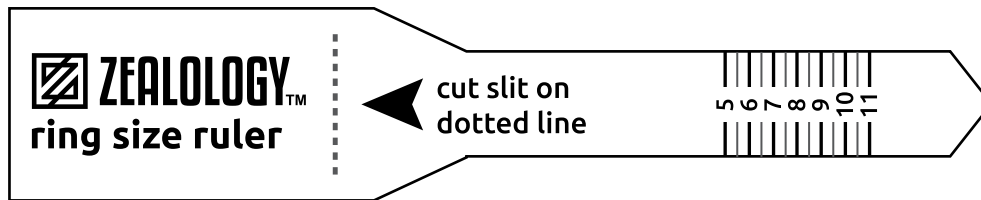

IMPORTANT!

Do not scale the page when printing or your ring size will not be accurate!
Make sure that you DO NOT have "Shrink oversized pages", "Fit to Page" or "Expand to fit" selected
and that the page scaling is set to none in the Print dialog box.
You can check that you've printed this page correctly by measuring the line below.

Option 1:

1. Print out our handy Zealology Ring Size Ruler!
2. Cut it out and snip a slit along the dotted line
3. Wrap the ruler around your finger and slide the end through the slit to find your size

Option 2:

1. Wrap a piece of string or a thin strip of paper around the base of your finger
2. Mark the point where the two ends meet
3. Measure the distance against a ruler
4. Compare the length to the chart below.
